Lead Generation carried the largest share — 80.2% of Meta spend.

CHANNEL SCORECARD

September, side by side

	META	GOOGLE
Channel spend	16,212 AED · 45.5%	19,428 AED · 54.5%
Active campaigns	6 4 lead gen · 1 traffic	6 5 Search · 1 PMAX
Avg daily spend	565 AED / day	650 AED / day
Lead capture	+ 38	+ 70
WhatsApp	+ 28	+ 110
Cost per lead	↑ > 500 AED	↓ < 500 AED

— Google captured 84% more lead-capture volume than Meta, at a cost per lead under 500 AED. Meta’s counterweight is creative discovery — hook rates reached 22%.

Meta

Upper-funnel discovery — leads arrived at a premium, and creative format decided the price.

META · 16,212 AED

Meta produced leads at a higher CPL. While its primary role is upper-funnel discovery, performance varied significantly across creative formats and audience segments.

REPORT SUMMARY

Meta

- Launch of new Meta assets through the month.
- Budget increased from the start of the month.
- Lookalike segments continue to drive high-intent traffic.
- Facilities video assets remain highly engaging.
- Top-performing video assets: Facilities and Arabic video.
- Parents engage on WhatsApp to ask for more information.

Google

Bottom-funnel intent — search met parents at the exact moment they went looking.

GOOGLE · 19,428 AED

Google outperformed Meta in overall conversion volume and cost-efficiency. Delivering direct, low-cost leads, it captured parents actively searching for private schools in Dubai — and drove call clicks and WhatsApp inquiries on top.

ACTIVE CAMPAIGNS 65 Search · 1 PMAX	AVG DAILY SPEND 650 AED / day	LEAD CAPTURE +70	WHATSAPP +110
COST PER LEAD ↓ < 500 AED			

The parents were already searching. Google just got there first.

- 01

Retargeting search — The retargeting Search campaign ran with strong efficiency, capturing conversions at a highly favorable cost.
- 02

Audience share — Female users drove a high share of conversions at low cost.
- 03

Behaviour — Parents engaged through calls and messages — call clicks and WhatsApp inquiries grew through the month.
- 04

Opportunity — Arabic-audience engagement lags — improving it is the next conversion lever.

MOST PERFORMING ASSET

Sitelinks

Extensions carried the strongest asset performance on the account this month.

Action plan

Eight moves for the next cycle — four per channel.

NEXT CYCLE

■ META — FOUR MOVES

01 Creative refresh

Focus new creative on the key decision factors — curriculum, fees and location — to reduce drop-off.

02 Retargeting

Reallocate budget toward what performs and restrict broad prospecting to parents.

03 Local

Align landing pages so Arabic traffic lands on dedicated Arabic-language pages.

04 Scaling

Put budget behind the high-engagement video assets.

■ GOOGLE — FOUR MOVES

01 Optimize

Tighten account structure and the Search campaigns.

02 Scale up

Increase budget allocation toward the Retargeting Search campaign.

03 Creative

Scale Facilities & Campus visuals — short-form video tours of the STEM labs, sports amenities and classroom environments.

04 Refining focus

Optimize Broad Generic Search.

Thank you.
